Involved Region or Country	U.S. ONLY
Condition	Under Field Action N252494000/N252494001, the service procedure includes performing a PICO test on vehicle engines within the identified suspect VIN population. If the engine passes the PICO test, the engine oil will be changed from 0W20 to Mobil 1 Supercar 0W40 dexosR. From that point forward, the engine must use 0W40 dexosR oil products for all future oil change services.
Cause	For oil changes following the initial recall service with Mobil 1 0W40 Supercar, GM is announcing the availability of Mobil 1 FS 0W40 dexosR (OIL, ENG SYNTHETIC 0W40 MOBIL 1) at a significantly more competitive price, closely aligned with what customers typically paid for traditional 0W20 oil. This product is available today and ready for use on customer pay maintenance visits.
Correction	<p>GM expects to have enough Mobil 1 FS 0W-40 dexosR, but there may be occasional shortages as production and distribution ramp up. If a customer needs an oil change during this time, and has a GM dealership complete the oil change, the dealer can temporarily use Mobil 1 Supercar 0W-40 until Mobil 1 FS 0W40 is available and can claim up to a \$50 credit using the labor operation provided in this bulletin. We anticipate this bulletin to be removed at the end of December 2025 or once Mobil 1 FS 0W-40 dexosR is consistently available.</p> <p>Important: This credit should be applied to the repair order ensuring the price of a customer pay oil remains aligned with traditional customer pay 0W20 oil changes.</p> <p>How this \$50 cost differential coverage works:</p> <ul style="list-style-type: none"> • Dealers that cannot obtain Mobil 1 FS 0W40 dexosR oil due to supply constraints, can perform the customer pay oil change using Mobil 1 Supercar 0W40 dexosR oil at the existing price. • Dealer should utilize the labor operation specified below for reimbursement of the \$50 credit. This credit should be applied to the repair order ensuring the price of a customer pay oil remains aligned with traditional customer pay 0W20 oil changes. <p>For Customers who have already paid full price for Mobil 1 Supercar 0W-40 dexosR can submit a reimbursement form to receive the \$50 credit. <i>Note:</i> Maintenance events that were not paid by the customer directly with a form of cash are not eligible for this reimbursement. This includes oil changes covered by pre-paid maintenance plans or paid for using My GM Reward Points.</p>

Important: Service agents must comply with all International, Federal, State, Provincial, and/or Local laws applicable to the activities it performs under this bulletin, including but not limited to handling, deploying, preparing, classifying, packaging, marking, labeling, and shipping dangerous goods. In the event of a conflict between the procedures set forth in this bulletin and the laws that apply to your dealership, you must follow those applicable laws.

Important Note

If Mobil 1 FS 0W-40 is available through local distributors, it should be ordered and used. The \$50 credit is intended as a temporary solution until supply stabilizes.

GM will verify that vehicles using the credit meet the following criteria:

- VIN is included in the L87 Field Action N252494000/N252494001

- Field Action Remedy has been Completed for N252494000 or N252494001 (Engine now requires 0W40 dexosR per oil cap)
- Proper mileage intervals between oil changes
- Repair Order (RO) and proof of payment (receipt) exist for a customer-pay oil change, and Mobil 1 Supercar 0W40 dexosR was used (PN 19432866, 19432867 or 19541248 MUST be on Repair Order)

Parts Information

The part numbers below are for reference only, they should not be submitted on the claim, but they should be on the repair order.

Causal Part	Description	Part Number	Qty

Version	2
Modified	Released November 06, 2025 Revised November 17, 2025 – Updated “**” Note within Warranty Information.

GM bulletins are intended for use by professional technicians, NOT a "do-it-yourselfer". They are written to inform these technicians of conditions that may occur on some vehicles, or to provide information that could assist in the proper service of a vehicle. Properly trained technicians have the equipment, tools, safety instructions, and know-how to do a job properly and safely. If a condition is described, DO NOT assume that the bulletin applies to your vehicle, or that your vehicle will have that condition. See your GM dealer for information on whether your vehicle may benefit from the information.
